Brexit

As an approved manufacturer of Class I Medical Devices, we are being asked with increasing frequency by our customers what our plans are for BREXIT.

Like the government, we do not know yet what will happen. As we are in a fortunate position of being financially able, we always maintain significant stock levels to ensure our response times, for our alarms and AGSS controls.

Secondly, as a key supplier whom you have come to trust and rely on, this year we have been increasing our overall inventories, to provide up to 6months provision of stock. We believe this buffer will provide continuity of supply until the expected impact on lead times is clear.

All we ask in return is that you please continue to keep your accounts current, in accordance to your agreed terms, to help us better manage our financial health through these difficult and unpredictable times.

Finally, on behalf of all of us here at Shire Controls, we hope allay some of the worries and uncertainties which we all share at this time.

Thank you in advance for your continued custom.

Yours faithfully

Shire Controls
